

## Curriculum Vitae – Résumé

### Summary

Last: TechLead at Mercadona.es

I have +16 years of experience in the software development/crafting, architecture design, scalability and reliability. In those years I've been working for private and public companies, military and banking, and sometimes as freelance (in parallel).

I want to remark my focus in agile, kanban, hexagonal architectures and systems design.

This is a short version of the CV, you can see all this CV positions and open source projects, publications, written tutorials, taught courses, facilitated katas/coding dojos details at: <https://franferri.io/cv/>
